NOTICE OF INTENT TO FILL VACANCY BY APPOINTMENT

To the Electors of the City of Riverside, Iowa:

You are hereby notified that the City Council of the City of Riverside, Iowa, has a vacancy of the council seat previously held by Rob Weber. The office of this council seat which expires December 31, 2019, is vacant as of August 16, 2018, pursuant to Section 69.2, Code of Iowa.

You are further notified that pursuant to Section 372.13(2) of the Code of Iowa, the Council has elected to fill the vacancy by appointment, but the electors of the City have the right to file a petition requiring that the vacancy be filled by a special election. A valid petition would have to be filed with the Riverside City Clerk within 14 days after publication of this notice, or within 14 days after appointment is made.

The appointment shall be for the period until the next pending election, as defined by Section 69.12, Code of Iowa.

The Council intends to make the appointment to fill the vacancy at its regular City Council meeting on September 4, 2018 and the appointment will become effective immediately and will expire December 31, 2019.

Persons wanting to be considered should submit a request in writing to the City Clerk by 1:00 p.m. on August 31, 2018.

Edgar F. McGuire

August 29, 2018

Mayor Allen Schneider
City Council Members of Riverside
60 Greene St. Riverside, IA

Subject: Letter of Interest for City Council Member Appointment

I, Edgar F. McGuire, would like to express my interest in the vacant city council seat. As was true when I ran for this position during the last election, I believe that I am a viable candidate and would be an asset to the city. It is this that brings me to ask for your consideration.

I, along with my wife, have enjoyed living in Riverside since 2016 and I welcome this opportunity to contribute to the city's growth and development. For 14 years I have successfully owned and operated my own business. The skills I have acquired and refined from managing employees, finances, and other business-related responsibilities during this time will certainly augment my role as a city council member. I understand that I will be committing myself to the remainder of Mr. Weber's term and would intend to seek election in 2019.

I would like to thank you for taking the time to consider my qualifications. I will attend the city council meeting on Tuesday, September 4. I appreciate the opportunity to answer any questions you and other council members may have. I look forward to serving the people of this community as a part of the council.

Thank you,

Edgar F. McGuire

CITY OF RIVERSIDE MEETING
RIVERSIDE CITY HALL COUNCIL CHAMBERS
60 N GREENE STREET
PLANNING AND ZONING COMMISSION
Monday, August 27, 2018, 6 p.m.

1. The meeting was called to order at 6:05 p.m. in City Hall.
2. Roll call showed the following members present:

Ryan Rogerson, Chairperson
Marcy Musser
Ellen Cloyd
Ralph Schnoebelen
Christine Kirkwood

Others present:
Allen Schneider, Mayor
Diane Poch

3. Commission members reviewed the final plat for Galileo Drive. The city has inquiries already coming in from people wanting to purchase lots as soon as the street is completed.
4. The Commission discussed the number and placement of lots. There was some confusion over an area marked Lot 'A' and another area marked Outlot 'A'. Lot 'A' is an easement along Tupelo and Outlot 'A' is at the SE corner near the school that will be reserved for storm water management. Work on the street is progressing and concrete should soon be poured. Rogerson moved and Musser seconded to send this plat to the council recommending approval. The Commission voted unanimously to approve the motion.
5. The Commission unanimously voted to approve the P&Z minutes from the July 23, 2018, meeting, noting the correction to the spelling of Mike Welch's name.
6. Rogerson moved to adjourn the meeting at 6:15 p.m., unanimously approved. The next scheduled meeting will be held Monday, September 24, at 6 p.m. There are already issues being discussed that will likely make this meeting necessary.

Ryan Rogerson
Chairperson

DEVELOPMENT AGREEMENT NORTH GROWTH AREA POTENTIAL PROJECT TO THE CITY OF RIVERSIDE, WASHINGTON COUNTY, IOWA

In this Development Agreement, the City of Riverside, Iowa, who shall hereinafter be known as the "City", whose mailing address is _____ and Apex Development Group, L.L.C., who shall hereinafter be known as "Developer", whose address is PO Box 2297, Iowa City, Iowa 52244 state:

WHEREAS, the City is desirous to assist with annexation and subdivision approval for the phased residential development of approximately 28 acres of property the subject matter of a purchase agreement between Yeggy Roetlin Farms, LLC and Apex Development Group, LLC.

WHEREAS, Developer is intent on proceeding to subdivide the foregoing property in phases and be responsible for the construction of certain improvements pursuant to City specifications by contractor Apex Construction, Inc., in exchange for financial reimbursement to Developer on a progress basis;

WHEREAS, Developer and Developer's agents and representatives are familiar with the Riverside Code of Ordinances, and Developer acknowledges Developer's and Developer's agents' and representatives' responsibility to comply with all applicable City standards, specifications, and regulations as established by the Riverside Code of Ordinances;

WHEREAS, City is intent on the development of residential expansion of its community and in furtherance of such intent is prepared to financially promote such development through periodic payment and reimbursement of construction and infrastructure costs to Developer and Developer's agents and to such extent provide City services at its sole cost to the entrance of the foregoing property to be known as Northern Heights Subdivision, and

IN CONSIDERATION OF ONE DOLLAR AND OTHER VALUABLE CONSIDERATION, RECEIPT AND SUFFICIENCY OF WHICH IS HEREBY ACKNOWLEDGED, IT IS AGREED BY EACH OF THE UNDERSIGNED PARTIES AND/OR

COUNCIL PACKET

THEIR DESIGNATED REPRESENTATIVES, as follows:

1. Design and Construction Costs. For purposes of this Agreement, any reference to "design and construction costs" shall be intended to refer to costs and improvements that include preliminary and final design engineering; construction phase engineering, including but not limited to staking, inspection and testing; street excavation, grading, base, under-drainage, and paving with curb; water main and service lines; sanitary sewers and service lines; storm sewers and retention and storm water management; catch basins, manholes; and street lighting, all as is required by and pursuant to City specifications.

2. Public Improvements. The Developer agrees to construct the public improvements in accordance with final plat for the Northern Heights Subdivision to Riverside, Washington County, Iowa and all relevant local land use regulation. Prior to constructing the public improvements, the Developer will submit copies of all engineering documents (the "Engineering Documents"), including the plans and specifications and timeline for construction, related to the proposed public improvements to the City. The City may request reasonable changes in such documents, to ensure compliance with any applicable ordinances or regulations.

The City shall retain all rights to inspect the public improvements for quality of work and full compliance with City Code. Inspection by the City shall be random during the construction stage of such public improvements and shall be undertaken when requested by Developer. Nothing in this subsection shall be interpreted as limiting the City's rights to not accept the work if the public improvements are not completed to the satisfaction of the City.

Upon completion of the public improvements, provided that (i) such improvements are of the type ordinarily dedicated to the City in connection with housing development projects; (ii) the City confirms to the Developer in writing that such completed improvements meet City requirements; and (iii) the City accepts such public improvements in accordance with State law, the Developer will provide the City with either a deed or permanent easement to the improvements and related right-of-way comprising the public improvements, which shall thereafter be owned and maintained by the City.

Furthermore, from time-to-time during the construction of the public improvements, the Developer agrees to submit pay requests to the City (each a "Pay Request") providing documentation of the costs then-incurred in the completion of the work. Such costs may include all infrastructure-related land acquisition costs, cost of designing and constructing the public improvements, landscaping and grading all land for public improvements, interest expense and other costs of financing, and other reasonably related costs of installing the public improvements.

Each Pay Request will be accompanied by invoices, and such other documentation as is reasonably requested by the City, confirming that the costs detailed in such documentation were in fact incurred in the installation of the public improvements and that such costs are of an amount reasonably to have been expected with respect to such installation.

2. Annexation. City agrees to proceed and undertake the annexation of the subject property sold by Yeggy Roetlin Farms, LLC and purchased by Apex Development, LLC to with which both Seller(s) and Buyer(s) have agreed to participate and consent to such annexation. Upon

COUNCIL PACKET

completion of the required annexation Developer shall submit its preliminary plat for the first sixteen (16) lots, identified as Phase One, of the phased subdivision, along with all other submission of required information pursuant to the ordinance requirements of the City.

3. Financial Commitment of City. The City intends to fund infrastructure improvements for the expansion (in multiple phases) of the Northern Heights Subdivision through at least 2022 and thereafter and pay Developer an amount per linear foot of street, beginning with Phase One with an annual increase per foot equal to the Consumer Price Index adjustment. There will be not less than four (4) additional ten (10) lot phases for which the City intends to provide funding for each phase of infrastructure improvements. The number of lots and density of each lot in each phase may vary. Developer knows and understands each subdivision phase must contain at least \$5,000.00 (defined as county assessed valuation) of expected property valuation per foot of street (both sides, not each side). As part of defraying the costs associated with installing the Phase One infrastructure required of the Developer, the City agrees to cover the expense of the design and construction costs of concrete paving of Tupelo Blvd. to the entrance of the subdivision, as well as the design and construction cost of sanitary sewer, water, gas and electric utilities, cable and other improvements to such entrance as identified by MMS Engineers as the "North Growth Area Potential Project." With respect to the remainder of the Phase One infrastructure, the City agrees to cover a portion of the costs thereof as hereinafter set forth. The City's share of such costs shall be calculated at an amount equal to \$610.00 per linear foot of street installed in Phase One. The City's total payments under this Agreement shall not exceed the maximum aggregate amount of \$ 450,000.00 (the "Max Payments Amount").

Provided that a Pay Request is accompanied by adequate documentation, as described in Section 2 above, the City shall remit payment to the Developer within 30-days of the receipt thereof in an amount equal to the improvement costs detailed in the Pay Request, provided, however that no such payments shall be made after the aggregate amount of payments has reached the Max Payments Amount.

The cost and expense of a retention basin area as depicted on Concept A of Axiom consultants identified as Riverside North Growth Area is to be included in the Phase One infrastructure costs and is a portion of the calculated amount per linear foot of paved roadway and will be part of the said public improvements to be owned and maintained by the city as stated in paragraph 2 of this agreement.

4. Developer's Costs. The Developer shall be responsible for all costs associated with the survey and engineering of the plat process requirements of the City in addition to all required public improvements, as agreed to in a separate document for each phase, including but not limited to, erosion control, grading, any required open space, utility easements, maintenance bond, construction or building permits, certificate of occupancy and sidewalk. The Developer shall have no obligation for the cost and expense incurred for the engineer or its firm on behalf of the City or for any legal expense incurred by or on behalf of the City, except as herin set forth. The Developer shall acquire the land for design and build the retention basin depicted on Concept A of hbk engineering identified as Riverside North Growth Area.

The Developer hereby agrees to cover the legal fees and administrative costs incurred by the City in connection with the drafting, negotiation and authorization of this Agreement, including the prerequisite amendment to the urban renewal plan, up to an amount not in excess of \$7,000. The

COUNCIL PACKET

Developer agrees to remit payment to the City within 30-days of the submission of reasonable documentation by the City to the Developer evidencing such costs.

5. Time for Completion. Completion of all such required phased improvements shall occur within that time frame allowed by the existing City of Riverside Subdivision Ordinance and approved by the City and the Developer. The Developer anticipates at least a three (3) year time period, if not sooner, from the City's approval of a Final Plat for each phase to certify for occupancy at least 75% of the lots in each phase. The City and Developer agree 75% of phased lots must be certified for occupancy prior to the start of the next phase.

6. Termination. Although the Developer anticipates the sale of at least 75% of the lots in each phase within a three (3) year time period from Final Plat approval, this agreement will not be subject to termination if such event fails to occur. If the Developer fails to complete the required infrastructure improvements within the period agreed to between the parties the City may terminate this Agreement upon sixty (60) days prior written notice to Developer of such failure without such required improvements thereafter being completed. If the City fails to make payment to the Developer as provided herein, the Developer may terminate this Agreement upon sixty (60) days prior written notice to City without such payments thereafter being made. Either party may not otherwise terminate this Agreement. Upon termination by either party, each are entitled to utilize any and all remedies or actions at law or in equity available to them, and the prevailing party shall be entitled to obtain judgment for costs and attorney fees.

7. Recording. This Agreement shall be fully executed by both parties, filed with the City Clerk, and if approved by resolution of the City Council, recorded at the Office of the Washington County, Iowa Recorder. The Developer shall provide a recorded copy of this Agreement and any related documents required by the City in a timely manner.

8. Waiver or Amendments. The action or inaction of the City or the Developer shall not constitute a waiver or amendment to the provisions of this Agreement. To be binding, amendments or waivers must be in writing, signed by both parties and approved by written resolution of the City.

9. Successors and Assigns. This Agreement shall be a covenant running with the land and inure to the benefit of and be binding upon the parties, their successors and assigns. The Developer may not assign this Agreement or the obligations imposed by this Agreement without the written permission of the City, which consent will not be unreasonably withheld.

10. Notices to Developer. Notices mailed in conformance with this section

COUNCIL PACKET

shall be deemed properly given. Required notices to the Developer shall be in writing and hand delivered to either Steve Schmidt or Harvey Miller or mailed to the Developer by registered mail at the address above stated.

11. Notices to City. Notices mailed in conformance with this section shall be deemed properly given. Required notices to the City shall be in writing and hand delivered to the Mayor or mailed to the City by registered mail in care of the Mayor at the address above stated.

DEVELOPMENT AGREEMENT
NORTH GROWTH AREA POTENTIAL PROJECT
TO THE CITY OF RIVERSIDE, WASHINGTON COUNTY, IOWA

In this Development Agreement, the City of Riverside, Iowa, who shall hereinafter be known as the "City", whose mailing address is _____ and Apex Development Group, L.L.C., who shall hereinafter be known as "Developer", whose address is PO Box 2297, Iowa City, Iowa 52244 state:

WHEREAS, the City is desirous to assist with annexation and subdivision approval for the phased residential development of approximately 28 acres of property the subject matter of a purchase agreement between Yeggy Roetlin Farms, LLC and Apex Development Group, LLC.

WHEREAS, Developer is intent on proceeding to subdivide the foregoing property in phases and be responsible for the construction of certain improvements pursuant to City specifications by contractor Apex Construction, Inc., in exchange for financial reimbursement to Developer on a progress basis;

WHEREAS, Developer and Developer's agents and representatives are familiar with the Riverside Code of Ordinances, and Developer acknowledges Developer's and Developer's agents' and representatives' responsibility to comply with all applicable City standards, specifications, and regulations as established by the Riverside Code of Ordinances;

WHEREAS, City is intent on the development of residential expansion of its community and in furtherance of such intent is prepared to financially promote such development through periodic payment and reimbursement of construction and infrastructure costs to Developer and Developer's agents and to such extent provide City services at its sole cost to the entrance of the foregoing property to be known as Northern Heights Subdivision, and

IN CONSIDERATION OF ONE DOLLAR AND OTHER VALUABLE CONSIDERATION, RECEIPT AND SUFFICIENCY OF WHICH IS HEREBY ACKNOWLEDGED, IT IS AGREED BY EACH OF THE UNDERSIGNED PARTIES AND/OR THEIR DESIGNATED REPRESENTATIVES, as follows:

1. Design and Construction Costs. For purposes of this Agreement, any reference to "design and construction costs" shall be intended to refer to costs and improvements that include preliminary and final design engineering; construction phase engineering, including but not limited to staking, inspection and testing; street excavation, grading, base, under-drainage, and paving with curb; water main and service lines; sanitary sewers and service lines; storm sewers and retention and storm water management; catch basins, manholes; and street lighting, all as is required by and pursuant to City specifications.

2. Public Improvements. The Developer agrees to construct the public improvements in accordance with final plat for the Northern Heights Subdivision to Riverside, Washington County, Iowa and all relevant local land use regulation. Prior to constructing the public improvements, the Developer will submit copies of all engineering documents (the "Engineering Documents"), including the plans and specifications and timeline for construction, related to the proposed public improvements to the City. The City may request reasonable changes in such documents, to ensure compliance with any applicable ordinances or regulations.

The City shall retain all rights to inspect the public improvements for quality of work and full compliance with City Code. Inspection by the City shall be random during the construction stage of such public improvements and shall be undertaken when requested by Developer. Nothing in this subsection shall be interpreted as limiting the City's rights to not accept the work if the public improvements are not completed to the satisfaction of the City.

Upon completion of the public improvements, provided that (i) such improvements are of the type ordinarily dedicated to the City in connection with housing development projects; (ii) the City confirms to the Developer in writing that such completed improvements meet City requirements; and (iii) the City accepts such public improvements in accordance with State law, the Developer will provide the City with either a deed or permanent easement to the improvements and related right-of-way comprising the public improvements, which shall thereafter be owned and maintained by the City.

Furthermore, from time-to-time during the construction of the public improvements, the Developer agrees to submit pay requests to the City (each a "Pay Request") providing documentation of the costs then-incurred in the completion of the work. Such costs may include all infrastructure-related land acquisition costs, cost of designing and constructing the public improvements, landscaping and grading all land for public improvements, interest expense and other costs of financing, and other reasonably related costs of installing the public improvements.

Each Pay Request will be accompanied by invoices, and such other documentation as is reasonably requested by the City, confirming that the costs detailed in such documentation were in fact incurred in the installation of the public improvements and that such costs are of an amount reasonably to have been expected with respect to such installation.

2. Annexation. City agrees to proceed and undertake the annexation of the subject property sold by Yeggy Roetlin Farms, LLC and purchased by Apex Development, LLC to with which both Seller(s) and Buyer(s) have agreed to participate and consent to such annexation. Upon completion of the required annexation Developer shall submit its preliminary plat for the first sixteen (16) lots, identified as Phase One, of the phased subdivision, along with all other

submission of required information pursuant to the ordinance requirements of the City.

3. Financial Commitment of City. The City intends to fund infrastructure improvements for the expansion (in multiple phases) of the Northern Heights Subdivision through at least 2022 and thereafter and pay Developer an amount per linear foot of street, beginning with Phase One with an annual increase per foot equal to the Consumer Price Index adjustment. There will be not less than four (4) additional ten (10) lot phases for which the City intends to provide funding for each phase of infrastructure improvements. The number of lots and density of each lot in each phase may vary. Developer knows and understands each subdivision phase must contain at least \$5,000.00 (defined as county assessed valuation) of expected property valuation per foot of street (both sides, not each side). As part of defraying the costs associated with installing the Phase One infrastructure required of the Developer, the City agrees to cover the expense of the design and construction costs of concrete paving of Tupelo Blvd. to the entrance of the subdivision, as well as the design and construction cost of sanitary sewer, water, gas and electric utilities, cable and other improvements to such entrance as identified by MMS Engineers as the "North Growth Area Potential Project." With respect to the remainder of the Phase One infrastructure, the City agrees to cover a portion of the costs thereof as hereinafter set forth. The City's share of such costs shall be calculated at an amount equal to \$610.00 per linear foot of street installed in Phase One. The City's total payments under this Agreement shall not exceed the maximum aggregate amount of \$ 450,000.00 (the "Max Payments Amount").

Provided that a Pay Request is accompanied by adequate documentation, as described in Section 2 above, the City shall remit payment to the Developer within 30-days of the receipt thereof in an amount equal to the improvement costs detailed in the Pay Request, provided, however that no such payments shall be made after the aggregate amount of payments has reached the Max Payments Amount.

The cost and expense of a retention basin area as depicted on Concept A of Axiom consultants identified as Riverside North Growth Area is to be included in the Phase One infrastructure costs and is a portion of the calculated amount per linear foot of paved roadway and will be part of the said public improvements to be owned and maintained by the city as stated in paragraph 2 of this agreement.

4. Developer's Costs. The Developer shall be responsible for all costs associated with the survey and engineering of the plat process requirements of the City in addition to all required public improvements, as agreed to in a separate document for each phase, including but not limited to, erosion control, grading, any required open space, utility easements, maintenance bond, construction or building permits, certificate of occupancy and sidewalk. The Developer shall have no obligation for the cost and expense incurred for the engineer or its firm on behalf of the City or for any legal expense incurred by or on behalf of the City, except as herein set forth. The Developer shall acquire the land for, design and build the retention basin depicted on Concept A of hbk engineering identified as Riverside North Growth Area.

The Developer hereby agrees to cover the legal fees and administrative costs incurred by the City in connection with the drafting, negotiation and authorization of this Agreement, including the prerequisite amendment to the urban renewal plan, up to an amount not in excess of \$7,000. The Developer agrees to remit payment to the City within 30-days of the submission of reasonable documentation by the City to the Developer evidencing such costs.

5. Time for Completion. Completion of all such required phased improvements shall occur within that time frame allowed by the existing City of Riverside Subdivision Ordinance and approved by the City and the Developer. The Developer anticipates at least a three (3) year time period, if not sooner, from the City's approval of a Final Plat for each phase to certify for occupancy at least 75% of the lots in each phase. The City and Developer agree 75% of phased lots must be certified for occupancy prior to the start of the next phase.

6. Termination. Although the Developer anticipates the sale of at least 75% of the lots in each phase within a three (3) year time period from Final Plat approval, this agreement will not be subject to termination if such event fails to occur. If the Developer fails to complete the required infrastructure improvements within the period agreed to between the parties the City may terminate this Agreement upon sixty (60) days prior written notice to Developer of such failure without such required improvements thereafter being completed. If the City fails to make payment to the Developer as provided herein, the Developer may terminate this Agreement upon sixty (60) days prior written notice to City without such payments thereafter being made. Either party may not otherwise terminate this Agreement. Upon termination by either party, each are entitled to utilize any and all remedies or actions at law or in equity available to them, and the prevailing party shall be entitled to obtain judgment for costs and attorney fees.

7. Recording. This Agreement shall be fully executed by both parties, filed with the City Clerk, and if approved by resolution of the City Council, recorded at the Office of the Washington County, Iowa Recorder. The Developer shall provide a recorded copy of this Agreement and any related documents required by the City in a timely manner.

8. Waiver or Amendments. The action or inaction of the City or the Developer shall not constitute a waiver or amendment to the provisions of this Agreement. To be binding, amendments or waivers must be in writing, signed by both parties and approved by written resolution of the City.

9. Successors and Assigns. This Agreement shall be a covenant running with the land and inure to the benefit of and be binding upon the parties, their successors and assigns. The Developer may not assign this Agreement or the obligations imposed by this Agreement without the written permission of the City, which consent will not be unreasonably withheld.

10. Notices to Developer. Notices mailed in conformance with this section shall be deemed properly given. Required notices to the Developer shall be in writing and hand delivered to either Steve Schmidt or Harvey Miller or mailed to the Developer by registered mail at the address above stated.

11. Notices to City. Notices mailed in conformance with this section shall be deemed properly given. Required notices to the City shall be in writing and hand delivered to the Mayor or mailed to the City by registered mail in care of the Mayor at the address above stated.

RESOLUTION #090418-04

RESOLUTION APPROVING CHANGE ORDER #9 FOR J & L CONSTRUCTION, LLC FOR THE DOWNTOWN STREETScape IMPROVEMENTS PROJECT

Whereas, the City of Riverside City at the recommendation of the City Engineering Firm, MMS Consultants, Scott Pottorff and it is the opinion of the City Engineering Firm that the City Council accept this Change Order #9 in the amount of \$ 2,242.50.

Therefore, be it resolved the City of Riverside City Council does hereby accept the Change Order #9 for replacement of lead water service at 51 W 1st Street in the Downtown Streetscape Project.

It was moved by Councilperson _____, seconded by Councilperson _____, to approve the foregoing resolution on September 4th, 2018.

Roll Call: Redlinger, Schneider, Sexton, Rodgers, _____

2245-013

Downtown Streetscape Improvements Project
Change Order #9

The following changes to the contract are requested to pay for replacement of the lead water service at 51 W 1st Street.

The attached pricing breakdown shows the cost for replacement of the lead water service. The changes required for this work are as follows:

ADD

<u>Item</u>	<u>Est Quantity</u>	<u>Unit Price</u>	<u>Total Estimated Cost</u>
Tunneling for Water Service	1 LUMP SUM	\$2,242.50	\$2,242.50
TOTAL ADDED			\$2,242.50

Change to the Contract

This change order would add the above item to the contract and increase the amount of the contract by \$2,242.50.

Reason for changes

Since this building does not have a basement, replacing the lead service required tunneling under the building to the rear of the building where the water service comes into the building. As noted on the attached, this cost is in addition to the unit price already established of \$737.73 for extending the water service into the building and connecting to existing inside the building.

RESOLUTION #090418-05

RESOLUTION APPROVING CHANGE ORDER #10 FOR J & L CONSTRUCTION, LLC FOR THE DOWNTOWN STREETScape IMPROVEMENTS PROJECT

Whereas, the City of Riverside City at the recommendation of the City Engineering Firm, MMS Consultants, Scott Pottorff and it is the opinion of the City Engineering Firm that the City Council accept this Change Order #10 in the amount of \$ 3,500.00.

Therefore, be it resolved the City of Riverside City Council does hereby accept the Change Order #10 for lowering the intake in the alley behind 51 E 1st Street in the Downtown Streetscape Project.

It was moved by Councilperson _____, seconded by Councilperson _____, to approve the foregoing resolution on September 4th, 2018.

Roll Call: Redlinger, Schneider, Sexton, Rodgers, _____

2245-013

Downtown Streetscape Improvements Project
Change Order #10

The following changes to the contract are requested to pay for lowering the intake in the alley behind 51 E 1st Street.

The contractor offered a lump sum price for this work. The changes required for this work are as follows:

ADD

<u>Item</u>	<u>Est Quantity</u>	<u>Unit Price</u>	<u>Total Estimated Cost</u>
Lower Intake and Lower Alley Grade to Match Intake	1 LUMP SUM	\$3,500.00	\$3,500.00
TOTAL ADDED			\$3,500.00

Change to the Contract

This change order would add the above item to the contract and increase the amount of the contract by \$3,500.00.

Reason for changes

During easement discussions with the property owner at 51 E 1st Street, he raised concerns about the elevation of the alley and intake at the NE corner of his property. He expressed that he thought the intake should be lowered along with the alley. He agreed to give the City an easement if the City would lower the intake. Pricing includes cutting and lowering the rim of the intake, regrading the area around the intake, removing and replacing granular base material as required. No curb and gutter will be replaced but will match the new grades.

Date: August 10, 2018

To: Riverside Council

From: Bill Stukey, Operator

O & M Report: July 2018

Water Operation & Maintenance

- Eric and I replaced the east chlorine bulk tank. The old tank was degrading and was no longer suitable for chemical storage.
- We fixed 8 curb stops along Sycamore St. We cut out small sections of the sidewalk around the curb stops that were sticking up in the air causing trip hazards and lowered the existing curb stops before replacing the cement.
- I investigated a high-water bill for the VFW. After some inspections and talking to the staff, it appeared the leak was coming from a toilet that was constantly running.
- On 7-22-18 I arrived at the water plant for weekend rounds. The plant had just started running and I noticed water coming from the bag filter area of the plant. After further inspection it appears the glue joint for an 8" schedule 80 joint had failed and was spraying a large amount of water. I shut down the plant and called Eric to assist. We were able to make a new joint with parts we had on hand and had the plant fixed within a few hours.
- 26 locates for the month of July, all completed.

Wastewater Operation & Maintenance

- We collected five E.coli samples from the effluent stream in accordance with our NPDES permit during the month of July, all samples came back with non-detect results.
- Eric and I dug up two hydrants at the wastewater plant that had been leaking for some time. The brass fittings at the bottom of the hydrants had corroded through causing the leaks. Both are now fixed and back in operation.

Subject: RE: riverside w-61

Becky-

Good afternoon, hopefully things are drying out in Riverside. See below for my answers to your questions.

- 1) Since this is in the city limits, patching is your responsibility. In general, we would follow the Iowa DOT Specifications, [specification 2529 link](#), and the construction manual related to pcc patching ([link to this section](#)). SUDAS may also have guidelines for patching that cities are familiar with. It appears the problem is related to a weak subbase at this location. So, we would remove concrete the width of one lane in this location and would probably remove at least 2 feet longer on either side of the damaged area. Then we would see what the subgrade is like, most likely it will be soft/sloppy; so we would then probably over excavate about 1 foot of material and backfill that with modified subbase from the quarry. We would put back the same thickness of pavement to match what is there and we would use rebar as tie bars with the adjoining pavement.
- 2) This board has to stay up till the project is complete with all of the necessary paperwork. Since this will still be a while, we will have the contractor come put it back up. Thanks for letting us know it was knocked down. . .
- 3) We are aware of this bump and we are working on getting a grinder scheduled to use with our skid steer so we can grind down the bump on the south side of the bridge. I'm thinking it should be taken care of in the next couple of weeks.

Hopefully I have answered your questions. If you need anything else, please don't hesitate to ask.

Jacob Thorius, PE
Washington County Engineer

Subject: riverside w-61

Good Afternoon Jaco

- 1) -Please see below, collapse of section of W-61 North of bridge.
What is the procedure/specs for getting this repaired?
- 2) Permit board at W61 and River street was hit by last night's winds.
Is this your board, or Pelling's? Can it be removed from City park?
- 3) Large lip/bump at south end of bridge. We have gotten several complaint for quite some time.
We assumed it would be corrected with the project. How can we get this ground down level with road?

Subject: Riverside, IA - Incode Upgrade
Attachments: Incode Upgrade FAQ.pdf

Good afternoon,

You are receiving this email today because according to our records you are still running an older version of the Incode software. Our latest version of Incode is 9.01 release 2018.2.

Tyler Technologies is currently working to get all Incode 8 customers upgraded to 9.01 by the end of the year. We have included an attachment for the FAQs of upgrading Incode, which should answer many of the questions you may have about the software upgrade.

Here shortly a Deployment Engineer will reach out to you to schedule an upgrade, and answer any questions you may have.

Ready to upgrade now? How to Schedule a Software Upgrade:

1. You can find our server requirements online by visiting [Tyler Check Site](#) and use any valid email address for the username and Tyler for the password. Choose the product you currently have and then choose View System Requirements
2. Customers can schedule upgrades themselves using our [online scheduling site called Acuity](#). This site allows you to see what days and times are available. There is also an FAQ section on that site that addresses upgrade and hardware concerns
3. If a server migration is needed with an upgrade, then a CRM case will need to be created for the LGD Technical Services Deployment Team [Online Community Login](#) or call 800-646-2633 to create the CRM case.

Mark Cavazos
Deployment Engineer

Good morning Becky attached you will find a quote for a new server with a full 3 year warranty and also a quote for a refurbished server that has a 90 day warranty. I would personally go with the new server because of the warranty . Please let us know if there is anything else we can help with.

I am putting the new system on the agenda for a vote on Tuesday 9-4-18.
I have a stack of e-mails and quotes since we started this.
Can you send me a quote summary of my options and what they include?
It needs to be "simple" for council to understand.
Please include your opinion on what would be best for us, and the time line for installation.

Sorry for short notice, but I need to print at 1:00 pm today.

You're the BEST!

Use the Power in Numbers to Receive Better Insurance Benefits

The **Iowa Municipal Benefits Plan** is an innovative offering designed to help small cities provide a benefits package to their employees that compares with what larger municipalities and private organizations offer.

As a member of the **Iowa Municipal Benefits Plan**, you will be able to offer your employees a comprehensive suite of insurance benefits, which include:

- Group Dental Insurance
- Group Vision Insurance
- City-Provided Group Life Insurance
- Employee-Paid Supplemental Life Insurance
- Short-Term Disability Coverage
- Long-Term Disability Coverage
- Employee Assistance Program

This program gives you tools designed to bring more value to small cities who currently offer a group health plan to its employees. Some of these valuable service enhancements include:

- Plan Design Analysis
- Health Plan Compliance Assistance
- Human Resource Consulting
- Affordable Care Act Guidance
- Employee Claims Assistance Hotline
- Flexible Spending Account Plan Administration

These value-added services are included at no cost to you upon joining this program.

The **Iowa Municipal Benefits Plan** was developed by a team of experienced insurance agents from across Iowa who are excited to provide you with more information. One of our agents, Eric Willis, will be in contact with you soon to answer questions you have. Feel free to call our offices and speak with our program administrator Kandi Nissen at 855-284-7955 or visit our website at iowamunibenefits.com.

The power of small towns combined

Frequently Asked Questions

Q – Our city already has health insurance and we do not want to change. Is this beneficial for us?

A – Yes! Most cities are part of a “small group pool” with their current carrier, not maximizing their benefits or potential savings. Our goal is to give you access to a bigger “pool” for those other benefits, to give you the opportunity to offer benefits you could not before.

Q – We already offer many of these benefits. Can you still help us?

A – We expect to be able to. We are bundling groups together to achieve better pricing by having more participants and spreading the risk. We would be happy to give you a comparison to see if we can help you save expense or offer more benefits for the same money you are currently spending.

Q – Our employees are currently covered by individual health insurance plans. Can we still use your program?

A – Yes. It would be smart to discuss options. The group health insurance market is currently priced below the individual market. It may be beneficial to your employees for you to offer a group plan (so their rates would be less expensive). It may also create savings for you because of the pre-tax nature of group plans.

Q – We already have life & disability insurance. Will you still be able to help us?

A – We expect to be able to provide a better benefit at a lesser cost by combining groups into one pool. It is difficult for employers with just a few employees to access some benefits without medical underwriting or higher costs. The reason for an association is to combine and save, as well as access benefits that are difficult for small groups to offer.

Q – We have heard of other association plans for counties/hospitals/banks. Is this like those?

A – It is the same concept, where like-minded employers in the same industry and with similar needs, get together to gain access to more products at better rates.

Q – Why hasn't this been done before?

A – With the changes caused by health care reform in the past few years to groups with under 50 employees, new opportunities exist. It is now possible to have lessened risk with enhanced benefits at a lower cost. We feel strongly that Iowa Municipal Benefits Plan will be able to provide more options and lower prices, catering specifically to small cities.

Q – How do I learn more about the program?

A – Call our office at 855-284-7955 and ask for Kandi or Eric. We have currently endorsed five offices throughout Iowa with agents who have been trained on our offerings and are ready to assist you. We look forward to hearing from you and helping you become an employer of choice in your community.

IMFOA By The Numbers

FALL 2018 IMFOA CONFERENCE HIGHLIGHTS

OCTOBER 17-19, 2018

Wednesday, October 17

9:00 a.m. - 3:30 p.m. - Athenian Leadership Dialogue: Hidden Figures

IMFOA will again be hosting an Athenian Leadership Dialogue in conjunction with the conference. The dialogue will be held on Wednesday, October 17, 9:00 a.m. – 3:30 p.m. The book selection is Hidden Figures: The American Dream and the Untold Story of the Black Women Mathematicians Who Helped Win the Space Race, by Margot Lee Shetterly, and it will be facilitated by Ellen Freeman-Wakefield, Nebraska Institute Director, University of Nebraska-Omaha. Hidden Figures follows the interwoven accounts of Dorothy Vaughan, Mary Jackson, Katherine Johnson, and Christine Darden, four African American women who participated in some of NASA’s greatest successes. It chronicles their careers over nearly three decades as they faced

challenges, forged alliances, and used their intellects to change their own lives - and their country's future. The dialogue is eligible for IMFOA and IIMC education credits. Separate registration materials are available on the website at www.imfoa.org.

4:30 – 7:00 p.m. – Welcome Reception – Fall Frolic

We look forward to seeing you at the welcome reception in the Ballroom. Join in celebrating the season of Fall! A great opportunity to share with your peers, network with the vendors, (they are the "pick of the patch"), and enjoy some light refreshments too! Play the Vendor Scavenger Hunt game for a chance to win a gift basket and gift cards! Vendor booths will also be open on Thursday from 10:00 a.m. to 12:45 p.m.

Thursday, October 18

9:00 a.m. – Welcome by President Ondrea Elmquist

9:15 – 10:00 a.m. – IPERS Update

IPERS CEO Donna M. Mueller will talk about key funding measurements, recent actuarial assumption updates, a rule change regarding bona fide retirements, system administration software upgrade and more.

10:00 – 10:30 a.m. – Break with vendors

10:30 – 11:15 a.m. – Making Improvements to Your Downtown

Tips & Tricks: How the little things can be "big" improvements in your downtown. Jim Engle, Director of the Iowa Downtown Resource Center at the Iowa Economic Development Authority, will show before and after photos from cities and offer suggestions and tips for improving your downtown. He will also discuss the programs the Downtown Resource Center offers.

11:15 a.m. – 12:00 p.m. – Alcoholic Beverages Division

Jake Holmes, Education & Outreach; Jason Hohn, Lead Licensing Clerk Specialist; and Karen Freund, Administrative Actions will review an application in its entirety to provide an understanding of what the Alcoholic Beverages Division does during the review process. They will also inform you as to what local authorities should do

during their review process and show where resources are available on the ABD website and discuss denials and suspensions.

12:00 - 1:00 p.m. - Lunch with Vendors

1:00 – 1:30 p.m. – Resource Center

Representatives from the state agencies and organizations that provide services to cities will be available for any questions you may have. You will be able to visit with as many resource people as you choose.

1:30 – 3:00 p.m. – Ethics

Presenting this session will be Michael A. Gillette of Bioethical Services of Virginia, Inc., Lynchburg, Virginia. This highly interactive, case-based discussion will consider a series of ethical issues that are associated with the provision of services in the public sector. We will begin by examining a pragmatic approach to careful ethical analysis and then move on to a discussion of issues of specific interest to those working in local government. Topics may include organizational and leadership ethics, managing conflicting expectations from elected officials, staff members, citizens and other stake holders, maintaining appropriate professional boundaries, and the ethical management of resources in an environment of scarcity. Case studies will be drawn from all departments and areas of public service.

3:00 – 3:15 p.m. – Break

3:15 – 4:30 p.m. – Ethics - continued

4:30 p.m. – Door Prizes

6:00 – 7:00 p.m. – Friendship Hour

Enjoy a cocktail before dinner with your colleagues.

7:00 – 8:30 p.m. – Banquet

8:30 – 9:30 p.m. – Entertainment will be provided by comedian Greg Hahn

[Check out this YouTube video of Greg Hahn.](#) We think you'll want to join us!

Friday, October 19**8:00 – 9:00 a.m. – Nuts & Bolts of Nuisance Abatement.**

This session to be presented by Mickey Shields, Assistant Director of Membership Services for the Iowa League of Cities, will focus on the basics of nuisance abatement to help refine your processes. Discussion will include best practices for city nuisance codes, how to fairly and consistently conduct enforcement, abatement processes, and collecting costs from property owners.

9:00 – 10:00 a.m. – Ask the Experts

Come with questions to ask this expert panel: Iowa State University Extension Program Specialist Cindy Kendall; Larry Burger and Maggie Burger with Speer Financial, Inc.; and Pat Callahan with Callahan Municipal Consultants, LLC.

10:00 – 10:15 a.m. - Break**10:15 – 11:30 a.m. – Transfers, Debt Service, & Administrative Code**

During this session, Ted Nellesen, Senior Fiscal and Policy Analyst - Local Government Budgets - Iowa Department of Management, will present information on properly budgeting, approving, and performing transfers between funds. Also to be discussed during this session will be using the Administrative Rules Code in connection with budgeting and transfers. Topics related to the issuing and paying of various forms of debt will be presented as well.
