- Fire Department April 2022 Report (If you have any questions on the report, please contact Chief Smothers)
- New member of the Fire Department: Jonathon Ward, two new members to the cadet program: Isaac Thomann, Aaron Schaedler
- Murphy's is being leased by Wonder Women LLC, and they are applying for a Liquor License
- Casey's General Store #2629 is renewing their liquor license
- Elisa Lyons is applying for an Urban Chicken Application. Right now Riverside does not address this in the city code, however, this has been allowed previously.

5. Now is the time for the Public Hearing for the FY22 Budget Amendment. The Public Hearing Notice is on the website and was printed in the paper 5/11/2022.

6. Washington County Sheriff will provide overview of calls for service in Riverside.

7. This quote from Electric Pump is for a spare anti-scalant pump for the RO in the water plant. This pump protects the RO filters, and the plant will not run without a pump in place.

8. Trevor Sherping and Olivia Kahler, Kalona Library, would like to present the summer reading programs being offered for Riverside children this summer. They will be asking if there is funding available to help with this program. Trevor and I have also discussed the possibility of a book delivery/pick up program for those unable to get to the library. The options for this are Monday, Tuesday, and Friday 8:30-11:00, or Monday, Tuesday, Wednesday, and Thursday afternoon from 2:30-5:00 p.m.

9. Tony Boshart purchased the property on 191 E 1st St 2/15/2022. He has had very little usage until the bill between 3/15/2022-4/15/2022. Becky contacted him to inform him of his high usage. This is a rental unit, so he checked out the property and found a pipe that had broken in the basement and had a basement full of water. My question is I do not know where the water went, whether he has a floor drain or not. He will be at the meeting to discuss a partial sewer abatement for the sewer portion only. The unit is not occupied at this point. Average usage for the previous two months has been 15 gallons per month. Price for sewer is 100% of water, which is \$6.00/1,000 gallons.

65,171 Current Usage 65,156/1,000 gallons=65.15 x \$6.00/1,000 gallons=\$390.90
- 15 Average Usage

65,156 Excess water

The other variable is was there any water used for clean-up/repair on the property.

10. Axiom updates

- Railroad Park
- 3rd street Update

- 3rd Street Update
- East Street Update: There is a picture included from Axiom on a proposed change to the end of East Street.
- Wastewater Plant Moisture Issue
- Water Plant Piping Repair-I do know there were several breaks last week again.

11. Resolutions

- I have included the FY22 Budget Amendment that was in the paper, and the breakdown of what funds and line items were amended.
- Included is the proposed 28E agreement with the City of Kalona for a sharing agreement. This has been sent to the attorney for review, but I may not have the attorney reviewed copy until Monday.
- The counteroffer for the commercial lot has been accepted, not city council will need to set a public hearing for the sale of city owned real estate as required by law.
- This resolution formalizes the discussion with Lexy Walgren regarding payment of 50%, or NTE \$3,500 to tap the sewer main for 120 Cherry Lane. It was also mentioned that this agreement would also apply to Charlie and Mariellen Bower, Terry Stumpf and Mike Schneider, who own additional lots in developed areas that may or may not have a sewer tap off the main extended to their lot.
- I added the resolutions for change orders to the Railroad Park Project. The actual change order backup will be emailed separately as I won't receive those until Friday morning.

12. The city clerk will be providing and explaining the utility billing reconcile reports and provide an update of the building permits pulled this since the last meeting and the open permits to date.

13. I have included the administrator's report. If anyone has any questions, please do not hesitate to contact me.

- Monthly Financials-items to review:
 - General Fund ARPF funds-still need to find a use for the \$152,302.18 (2nd payment in August 2022)
 - Gaming, agreement funds, can be used for capital project
 - Hotel/Motel Tax 50 % has specific uses
 - Debt Service-final payment
 - Capital Projects-used for Railroad Park Project to date (\$242,550.93 will show up in May financials) plus the rest of the project should be paid by June 30th. Based on engineers estimates and engineering fees, should be approximately \$337,000 more from this fund.
 - Water-after the transfer to Capital Projects, currently not enough in the fund for monthly expenses and reserves. Still need to fund for the water plant repairs.
 - Sewer-Currently in pretty good shape. May need to transfer some of the funds for the 3rd Street Project. Also, not sure of the cost for the repairs to the wastewater plant.
- Amendments to City Code:
 - Chapter 20: This amendment would allow the City Administrator to discuss items of city business with the city attorney, and clarify that the city council as a body, not individually, could review items with the city attorney.

- Chapter 69: Add section 69.13, Recreational Vehicles Parking Limited to the parking regulations. This will clarify where vehicles can park and stored.
- Section 105.05 This is a beginning of the changes that Sheriff Schneider and I discussed. It is not in the complete form yet, just for your review to start thinking about.
- Section 106.10 This would add a section on how long carts can be at the curb as there are some that leave their carts at the curb continually.
- Section 165.11.a.2 Permitted uses in the M-1 Industrial District. This has been brought up before on where the city council would prefer the location for storage garages. Planning and Zoning recommended this change at their last Planning & Zoning meeting.
- Section 165.11.a.3 Remove living quarters in the M-1 zoning. Lois had brought this up at a city council meeting, and Planning & Zoning recommended this change at their last Planning & Zoning meeting
- Section 165.11.b.2 Permitted uses in M-2 District. This change would allow storage garages in the M-2 District. This was recommended for change at the last Planning & Zoning meeting.
- Section 165.21.3.A.2 This will add the wording clarification from the recommendation from Planning & Zoning.
- I also included a sample of an urban chicken ordinance and Chapter 75 that Tom had asked to be reviewed at a later date.
- I have included the last list of short/long-term goals that have been discussed.

RIVERSIDE FIRE DEPARTMENT

FIRE / RESCUE / EMS / HAZMAT

April 2022 Update

Calls for Service:

Medicals – 21
Building Fires – 2
Motor Vehicle Accidents - 3
Brush Fires - 1

Total calls – 27 calls for service in April

Training:

The RFD held a joint training with our mutual aid FD's on 4/2 for 8 hours. The training covered fire ground operations on hose line management, stretching, advancing, fire attack, forcible entry and search and rescue under live fire conditions. This 8 hour training was held at the RFD training facility. This type of training is valuable to how we all work together and operate at structure fires. The FD's attending that day were Riverside, Ainsworth, Hills, Lone Tree and Wellman. (Kalona had pancake breakfast that day so unable to attend)

RESA:

The breakfast was supported great by the community, we served over 1200 people which is a record for us, previous high was 1000. We raised around \$16,000 which will go towards future equipment purchases.

Other News

The storm siren is operational after working with Graybill and RACOM it was discovered after more testing the issue was with the antenna at Washington County Dispatch. This is not a 100% perfect option/fix as we're still dealing with old outdated communications equipment to operate the storm sirens. This is a county wide problem, Toby and Christine had several meetings and more time invested into figuring out how to get the sirens working again. Thanks to Toby for his hard work on making sure our community safe. The new brush truck is still at Feld Fire for installs, they're still waiting on a couple pieces to finish.

I would ask that if anyone ever has questions to reach out to the command staff and ask them, prior to making decisions or statements about RFD.

Serving Proudly
Thanks
Chief Smothers

Why do you want to become a firefighter for the Riverside Fire Department?

I have enjoyed my time learning and being apart of the AFD for the past couple of years. I enjoy helping people and the rush that comes with being there for someone in their biggest time of need. I know the RFD is a big family and is well known in our county for having it together. I have worked along side a lot of the guys on the RFD and have been impressed. With me moving to Riverside I know I can be an asset to the department in both my flexibility from my work and willingness to help out in any way possible. I have had some great leaders from the AFD and I know there is some great leadership here at the RFD.

PLEASE NOTE: APPLICANTS WITH RESIDENCY OUTSIDE OF THE RIVERSIDE FIRE DEPARTMENT DISTRICT ARE REQUIRED TO BE PHYSICALLY IN THE STATION OR INSIDE THE CORPORATE CITY LIMITS A MINIMUM OF 40 HOURS PER MONTH. RFD HAS LIVING QUARTERS AVAILABLE FOR MEMBERS USE.

From: Benjamin Stumpf, Steve Robinette, Heath Draeger - Operators

O & M Report: April 2022

Water Operation & Maintenance

- Brent Briley with Subsurface Solutions and spent a day with Benjamin training him on the finer points of using our locator.
- RO Train #3 motor was reinstalled but, on start-up, it blew a seal out the top. We purchased replacement seals. We hope there isn't any damage to the pump that caused this but we will find out after we replace the seal and try again. We decided to get a quote for a new pump just in case. Either way, given the supply chain issues, we recommend having another pump as a back up.
- The Anti-Scalent pump was giving us issues with priming and sending a "pump" signal to the PLC. The plant will not run without this signal, so it is a very critical piece of equipment. We discovered we only have one of these pumps, but the skid requires 2. we intend to purchase one pump to install and order a second one in the next budget year as a spare. |
- We met with V&K on May 2 to discuss plans to replace the schedule 80 piping in the water plant. We've had 7-8 distinct breaks in the past month so we are very eager to get this piping replaced with a more practical, stronger, material.
- A large portion of the month we spent developing SOPs for the water treatment with an emphasis on RO operations.
- We put on a curb stop riser on a service on Kleopfer Ave.
- On May 9th we tapped the water main for service at 120 Cherry Lane and mapped it.
- In April, we posted 4 disconnect notices and shut 1 customer.

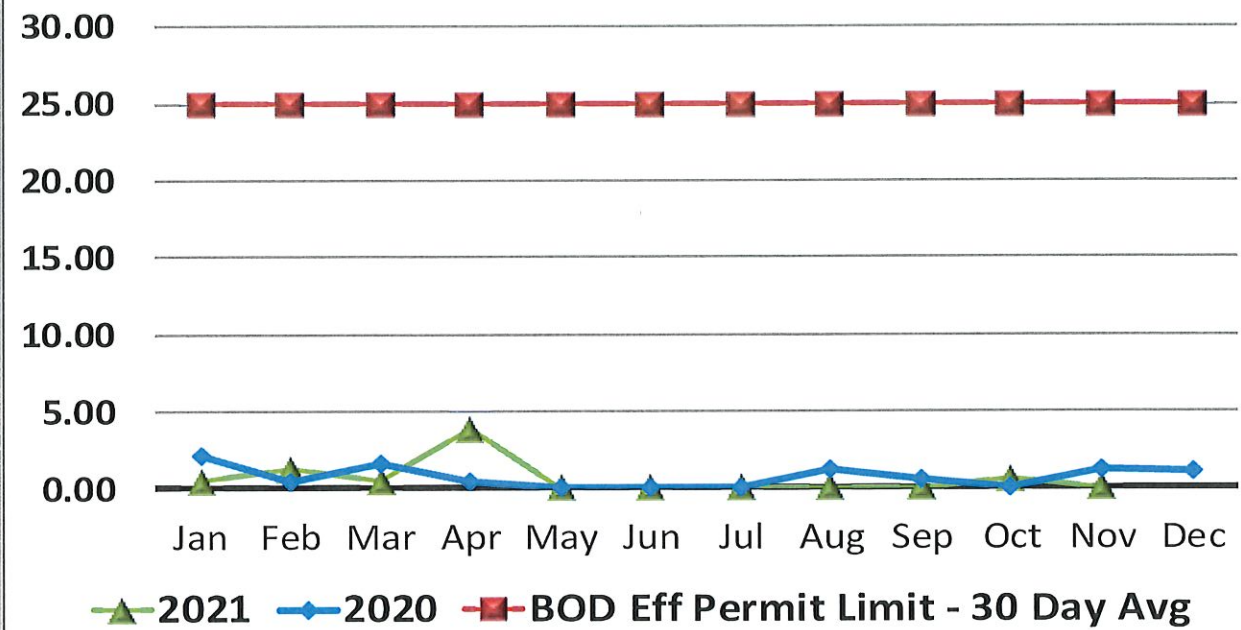

Wastewater Operation & Maintenance

- We will be E.coli testing in May
- Effluent ammonia was a little high in the first week of April. We think this may have been caused by "bug" inactivity from the winter. We increased our solids and, with the warmer temperatures, we were able to get it back down to zero.
- We discovered the air compressor on the UV system was inoperable, so we ordered a replacement. This compressor powers the cleaning system for the UV system so we are looking forward to getting that going again.
- The sewer main in the 3rd street project was televised and the report was given to the city.

If, at the time of closing there remain unresolved title objections, the parties agree to escrow from the sale proceeds a sufficient amount to protect the BUYERS' interests until said objections are corrected, allowing a reasonable time for the corrections of said objections: provided however that if the commercial mortgage lender of the BUYERS will not make the mortgage funds available with such escrow, the provisions for escrow for title defects shall not be applicable.

12. JOINT TENANCY IN PROCEEDS AND IN REAL ESTATE. If SELLERS, immediately preceding acceptance of the offer, hold title to the Real Estate in joint tenancy with full right of survivorship, and the joint tenancy is not later destroyed by operation of law or by acts of the SELLERS, then the proceeds of this sale, and continuing or recaptured rights of SELLERS in the Real Estate, shall belong to SELLERS as joint tenants with full rights of survivorship and not as tenants in common; and BUYERS, in the event of the death of either SELLER, agree to pay any balance of the price due SELLERS under this contract to the surviving SELLER and to accept a deed from the surviving SELLER consistent with paragraph 7.

In the event the SELLERS fail to perform SELLERS' obligations under this contract when required to do so, SELLERS shall pay to Broker the Broker's commission in the amount set forth in the SELLERS' Listing Agreement with the SELLERS' Broker.

15. STATEMENT AS TO LIENS. If BUYERS intend to assume or take subject to a lien on the Real Estate, SELLERS shall furnish BUYERS with a written statement prior to closing from the holder of such lien, showing the correct balance due.
